ORGANIC BEEF

Our customers will be aware that our own beef cattle are organic but our butchers have never promoted the fact due to the past non-organic status of our local abattoir.

You'll be delighted to hear that they are awaiting confirmation of their new organic certification so we're looking forward to be able to officially say that our beef is fully organic very soon.

We'll keep you informed.

PLANS ARE AFOOT

On the farm we're planning our crop rotation for the year ahead.

It's vitally important to give the ground a chance to rest, so to improve

the growing conditions of the soil we are constantly rotating the crops that we grow.

Starting with grass, we'll move on to what we refer to as a 'cleaning crop' like kale, rape or beet, then a cereal crop like barley, then peas or barley undergrown with grass.

There's never a dull moment!

TRY BEFORE YOU BUY

Absolutely everything that our chefs use to prepare the home-made food that we serve in our Café and sell in our Deli comes from our own farm shop so if there's something that you particularly like on our menu you can be sure to find the ingredients right here so that you can

make it at home for yourself.

Always check out our specials board for some interesting new flavours and additions to our usual menu.

On that note, keep an eye open for our new mouth-watering Café menu, its coming very soon.

Kind regards,

Lyndon, Maria, Harriet & our award winning team

FRONT ROW SEATS FOR DANCING COW DAY

Everyone's welcome to join us on Dancing Cow Day. It's the day when we release our milking herd back into the fields after spending the winter indoors.

Sign up for our Moosletter on our website and you'll be the first to know when its going to happen (just click on MORE MOOS).

The first 20 people to arrive on the day will be able to join us on our farm people carrier and view the event from the heart of the action.
